*Projection of handle (56mm) not included **Width excluding shelf racking strips. Racking reduces the internal width by 15mm

A PRACTICAL, OFF-THE-SHELF SOLUTION

The Chubb safes Senator range is ready-to-use on delivery and can be fixed to the floor, as the required bolt is included. The stylish dark grey colour provides an attractive appearance whilst the lever handle enhances user comfort.

All three sizes are fitted with 1 x shelf, capable of holding a maximum of 45kg. Additional shelves can be purchased, which can be easily positioned at various heights due to the internal shelf racking.

The Chubb safes Senator models have an overall body wall thickness of 40mm and door thickness of 99mm.

ACCREDITED BY SECURED BY DESIGN

The Senator range meets police approved standards.

Secured by Design is the flagship UK initiative to help 'design out' crime through the use of high quality, innovative products and processes.

Approved by the Association of Insurance Surveyors

The Chubb safes Senator range has been certified EN 1143-1 in burglary resistance and EN 15659, LFS 30P for up to 30 minutes of fire resistance by the European Certification Board of Security (ECB-S).

LOCK OPTIONS

All sizes are fitted with either a Class A key lock or Class B high-security electronic lock. Both locks are certified by ECB-S in accordance with European standard EN 1300.

Dual locking is available on sizes 2 and 3. Manual combination locks or alternative electronic locks can also be fitted to all sizes, all subject to additional costs.

KEYLOCK

The safes are opened and closed simply by turning the inserted key and lever handle. Key length is 120mm.

ELECTRONIC LOCK

The electronic lock can be programmed by the user with a six-digit personal code which is memorised by the lock and used each time the safe is opened. Standard lock has one master and one user code.
