TRIDENT

BURGLARY, FIRE AND EXPLOSIVES PROTECTION

KEY FEATURES

- The Trident range is independently certified to cover three types of risk:
 - Burglary protection in Grades IV–VI. Certified by ECB•S in accordance with the stringent European standard, EN 1143-1
 - Fire protection for documents for up to one hour. Certified NT Fire 017 – 60 Paper by SP
 - Protection against explosives in Grade IV–VI EX. Certified by ECB•S in accordance with the stringent European standard, EN 1143-1
- Eight models for each grade, ranging from 111 to 1117 litres in capacity
- Wide choice of key locks, combination locks or electronic locks
- Range of interior fittings includes shelves and full width drawers
- Available with the door hung on the right or the left
- Ergonomically designed to allow for full access to the safe's contents when the door is opened 90°

A Product Division of **right action**

* Projection of hinge (25mm) not included. ** Projection of handle (65mm) not included. *** Width excluding shelf racking strips. Racking reduces the internal width by 20mm

LOCK OPTIONS

Fitted with two x EN 1300 certified key locks as standard. Combination locks and electronic locks are available at additional costs.

GRADES IV & V

At least two EN 1300 Grade B locks must be fitted as standard.

GRADE VI

At least two EN 1300 Grade C locks must be fitted as standard. As an option for all grades, a third lock may also be fitted under certain conditions.

OTHER OPTIONS

- SDL 2000: Size 600 can be fitted with up to two columns of safe deposit lockers, size 910 with three and size 1120 with four.
- Diamond core drill (CD) protection: extra EN 1143-1 certification from ECB+S for Grades IV to VI.
- DOCT alarm system with in-built shock, thermal and seismic detection sensors. Available in two levels: standard risk and high risk.
- Preparation for VdS alarm cabling and the ability to service a seismic sensor when safe deposit lockers are fitted.

TESTING

BURGLARY CERTIFICATION: GRADES IV-VI, EN 1143-1 (ECB+S)

A range of tools typically used in burglary attempts were used to test Trident's level of resistance, from basic equipment, such as hammers and simple drills, to sophisticated thermal and electrical equipment, such as oxyacetylene torches and disc cutters.

EXPLOSIVES CERTIFICATION: GRADES IV EX-VI EX, EN 1143-1 (ECB+S)

Trident has also been approved for resistance against explosives – a particularly high level of protection for your valuables.

FIRE CERTIFICATION: NT FIRE 017-60 PAPER (SP)

In addition, Trident will protect documents from the effects of fire for up to one hour. During the testing procedure, the safe was placed in a furnace and heated to temperatures around 1000°C without the documents inside sustaining any damage.

Trident is accredited by Secured by Design, the flagship UK police initiative to help 'design out' crime through the use of high-quality, innovative products and processes.
