FIRECHIEF® STANDALONE CARBON MONOXIDE ALARM - 5 YEAR BATTERY

**TRUST FIRECHIEF® HOME ALARMS TO
KEEP YOUR FAMILY SAFE.**

MODEL: FCB05

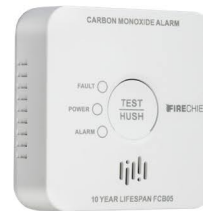

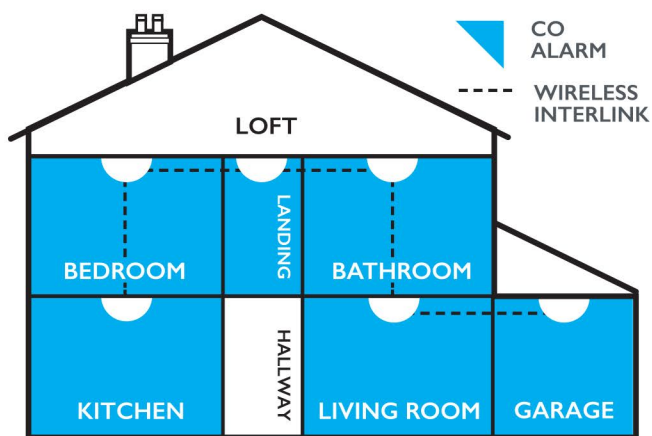

Ensure the safety of your home with the standalone Firechief® Home Carbon Monoxide Alarm, a reliable solution for detecting dangerous levels of carbon monoxide. This advanced alarm features high-precision sensors for accurate detection, providing early warnings to prevent potential hazards. Its user-friendly design allows for easy installation without the need for complex wiring, making it a convenient and effective safety addition to any home.

Equipped with a loud audible alarm and LED indicators, the standalone Firechief® Home Carbon Monoxide Alarm ensures immediate notification in the event of danger. The compact, sleek design fits effortlessly into any home decor, offering both functionality and aesthetic appeal. Trust Firechief® Home Carbon Monoxide Alarm's to deliver peace of mind and robust protection for you and your family with this essential safety device.

What do I need, and where?

Based on current best practice, and ongoing legislative reforms, the Firechief® Home Safety Team recommends that you should:

Install Firechief® Home Carbon Monoxide Alarms on each floor of your house and in every room that contains a fuel burning appliance such as boilers, cookers, heaters, gas fires and solid fuel burners.
