

Our new environmentally friendly Anti-fatigue mats

We are proud to be launching a new range of products made from recycled material, which is harnessed from post-industrial waste. The raw material for these new products is captured and recycled at our manufacturing locations, which not only make the products better for the environment it also helps reduce waste.

We are launching this initiative with two new products – **Deckplate ReGen70** and **Orthomat® ReGen 100**.

Deckplate ReGen70 is made with 70% recycled material, and **Orthomat® ReGen100** consists of 100% recycled material!

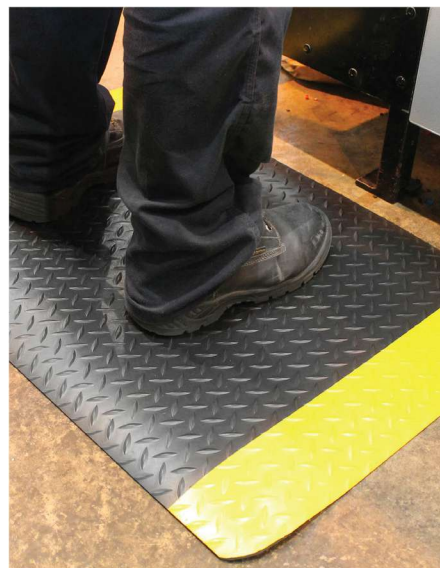

Look out for the new **ReGen**  logo, which we've created so that these products are easy to distinguish from the standard range.

DECKPLATE

ReGen⁷⁰ 

**Fatigue relief in demanding environments
- now more environmentally friendly!**

- Reduce standing fatigue for workers in industry.
- Dual layer mat provides balance of comfort and wear resistance.
- Hardwearing top surface ensures a long life in normal use.
- Checker plate style design suits industrial environments.
- Self-extinguishing top surface provides resilience to many industrial chemicals.
- High visibility version available with bright yellow borders.
- Bevelled edges help avoid creating a trip risk.
- Product height: 15 mm

Deckplate ReGen70 is based on our popular and successful Deckplate products, and shares the same qualities and safety characteristics as our standard Deckplate mats. **Deckplate ReGen70** is made with 70% recycled material, which makes it the ideal solution to fit in with CSR and environmental company policies.

Size	Colour	SKU
0.6m x 0.9m	Deckplate ReGen70 Black	DPR010001
0.9m x 1.5m	Deckplate ReGen70 Black	DPR010002
0.9m x 18.3m	Deckplate ReGen70 Black	DPR010003
0.9m x per linear metre	Deckplate ReGen70 Black	DPR010003C
0.6m x 0.9m	Deckplate ReGen70 Black/Yellow borders	DPR010701
0.9m x 1.5m	Deckplate ReGen70 Black/Yellow borders	DPR010702
0.9m x 18.3m	Deckplate ReGen70 Black/Yellow borders	DPR010703
0.9m x per linear metre	Deckplate ReGen70 Black/Yellow borders	DPR010703C

Typical Applications

Packing stations, Assembly areas,
Production lines where regular turning occurs

Material

70% Recycled Post-Industrial Waste

Vinyl top surface with 100% recycled PVC
foam backing (fusion bonded, not glued)

Resistance to Environment

Suitable for dry indoor environments
