

SPILL ZONE®

Our SpillZone® Absorbent Spill Stations provide an effective solution for storing anti-spill absorbents in the workplace.

Our SpillZone® Absorbent Spill Stations are available in three practical configurations, each featuring different roll holders and compartments for storing absorbent rolls, sheets, and socks. Additionally, a lockable cupboard at the bottom provides space for extra stock.

- Made from robust thick mild steel for outstanding strength.
- Three configurations available.
- H1820 x W550 x D550mm.
- Powder-coated dark blue carcass with a yellow door front.
- Helps ensure compliance with safety regulations.
- Lockable storage cupboard for storing stock, absorbent sheets/rolls.
- Fitted as standard with cam locks and supplied with two keys; latch locks are available as an alternative.
- Contents not included, for illustrative purposes only.
- Reaction to Fire Classification EN 13501-1.
